WJ-M-800 — Multi-Function Tracked Machine

Diesel-powered tracked platform with quick-change attachment system — one base machine, five attachments. GNSS-RTK autonomous navigation as standard; LiDAR and vision remote controller optional.

800 mm
CUTTING WIDTH

9.5 kW
RATED POWER (YUCHAI DIESEL)

422 kg
NET WEIGHT

5 sets
QUICK-CHANGE ATTACHMENTS

TECHNICAL SPECIFICATIONS

Item	Specification
Engine	Yuchai 1102F-80 diesel engine
Rated power	9.5 kW
Cutting width	800 mm
Cutting head height adjustment	30–120 mm
Working efficiency	1,998 m²/h
Overall dimensions (L×W×H)	1,880 × 995 × 780 mm
Net weight	422 kg
Attachment sets	5 sets, quick-change system
Chassis	Tracked (crawler) undercarriage
Navigation & control	GNSS-RTK autonomous navigation standard (base station, GNSS antenna, navigation controller); LiDAR obstacle avoidance and vision remote controller available as options
Warranty	12 months (extended warranty negotiable for volume orders)

Applications: orchards, farmland, wasteland and slope vegetation management. · Machines engineered by WANJI and built in our partner factories. · Specifications based on current product data and subject to update without notice.
